

Disposal of Christmas Trees:

After Christmas you may dispose of your tree in two easy steps if you live **on post**.

1. Clean up your tree (remove all decorations)
2. Put it in the grass area next to your building near the road, job done!

The Area Support Team (AST) will collect the trees on Jan. 12 and 20, 2015.

If you miss those dates, or want to dispose of your tree right now, you may bring your tree to:

URLAS Kaserne and follow the arrows posted next to the main road showing the way to the disposal area

Or if you live on Storck Barracks, drive from the exit gate to the main gate and follow the sign to “Kompostplatz” (left turn right after steam plant)

Disposal of an artificial Christmas tree is at the Katterbach or Storck Barracks on post Recycling Center.
